

# Light grid

double access doors (Exit)

on pantograph

on pantograph

Our overhead lighting grid is a professional set of lighting and is DMX controllable.

As part of your hire we show you how to use it and setup is included to get you started.

The studio is pre-lit with a series of kinoflo fixtures and fresnels.

This diagram shows a simplified grid layout - There are more lights than shown here and items such as are kinoflo diva floor banks are not detailed in the diagram.

We're pre lit to be able to provide soft white infinity, greenscreen and hair and key lights.

- 500w fresnel
- A KINOFLO IMAGE 80
- 22inch screen on pantograph SDI - HDMI in

Position of lights is approximate. DMX Controllable.

Studio lighting is set to tungsten at 3200 kelvin. Tube fixtures are Kinoflo tru match

Additional floor lights are available for hire, ie dado, red heads, blondes. Please contact us for more info. Lights positions subject to change. Flash not included in hire - Bowns available.
